

PROFESSIONAL SUMMARY

Data analyst with 10+ years in automotive aftermarket and enterprise technology, the last four years in data, pricing, and product analytics. I build and maintain the datasets, KPI dashboards, and pricing models that executive, VP, and director-level leaders rely on. I led catalog, pricing, and governance integration for two acquired brands, and maintain 120,000+ SKUs across catalog and ERP systems with accuracy across ACES, PIES, TecDoc, and NAPA.

CORE SKILLS

Analytics & BI: SQL, Snowflake, Power BI, Tableau, Excel, Power Automate, Claude & Copilot dashboards, agents, and workflows

Data Platforms: Snowflake, Fivetran, Epicor (PIM, DAM, TP Web), NetSuite, HubSpot, JNP

Product & Catalog: ACES, PIES, TecDoc, NAPA, catalog management, VIO & gap analysis, MAP & price-level management

Strategy & Process: Data governance, project management, market research & benchmarking, SOPs, UAT, training

PROFESSIONAL EXPERIENCE

Advanced Innovative Technology Corp. (TrakMotive) — Redlands, CA

2022 – Present

Data Analyst, Business Intelligence & Analytics

2026 – Present

Data Analyst, Product

2025

Data Support Specialist, Product

2022 – 2025

- Administer Snowflake, Fivetran, Epicor PIM/DAM, NetSuite, and HubSpot, owning data reliability, standards, and integrity.
- Build recurring reports and KPI dashboards for the VP of Operations; deliver analysis for the VP of Sales.
- Maintain vendor cost, customer price levels, and item and packaging data, keeping reporting accurate across brands.
- Led catalog and pricing integration for 2 acquired brands: catalog audits, pricing logic, and data-structure alignment.
- Support pricing across 60+ customer price levels and 3 core brands, regularly delivering RFQ, FOG, and MAP files.
- Built interchange and cross-reference lookup tools used company-wide, cutting lookup time from hours to seconds.
- Run line reviews, VIO research, gap analysis, and competitive benchmarking across 120,000+ SKUs.
- Manage ACES, PIES, TecDoc, NAPA, and regional catalogs across the full lifecycle, from new-part onboarding to obsolescence.
- Wrote governance rules, workflow docs, and SOPs; trained cross-functional teams to reduce recurring data errors.

NCR Corporation — Remote

2015 – 2022

Business Operations Analyst (formerly Managed Services Implementation Specialist II)

2019 – 2022

Customer Engineer II

2017 – 2019

Customer Engineer I

2016 – 2017

Field Maintenance Technician (NCR contractor via Computech Corp.)

2015 – 2016

- Led end-to-end SaaS onboarding for enterprise clients: installation, configuration, UAT support, and end-user training.
- Coordinated regional and national rollouts, scheduling fleet-wide implementations and travel for self and team.
- Wrote project- and account-specific installation guides and technical documentation for internal teams and customers.
- Managed remote deployments, incidents, and SLAs; repaired ATMs, POS, self-checkouts, and network hardware.
- Lead technician and mentor, training new engineers on deployment procedures and multi-vendor equipment.

Earlier Experience

General Service Technician — Pep Boys, Chino, CA

2014 – 2015

AutoZoner / Commercial Driver — AutoZone, Rancho Cucamonga & Ontario, CA

2013 – 2014; 2019 – 2020

- Built the parts and vehicle foundation behind today's catalog work: multi-point inspections, diagnostics, and service writing with Mitchell 1 and ALLDATA, plus commercial parts sales, inventory, and delivery.

EDUCATION & TRAINING

NCR University — 138+ multi-vendor courses and certifications in hardware, software, networking, and enterprise systems

LinkedIn Learning — Data analytics, ITIL 4 Foundation, networking fundamentals, Wireshark

Chaffey College — Automotive Technology certificates
